Providence Bay – Moderne Design House

Moderne Design House has created a unique home for people with warmth and love. The existing partitioning and layout are remained, the designer has to make use of colour, lighting and texture to constitute contrast, alterations and atmosphere. The designer has put a lot of effort in research to build a custom made space for every family member. Finally, a room with the icon of Captain America, a room about the Nature and a room of simple and comfort have been designed for the parents and sons. Warm wall covering, soft lighting and furniture of Northern European style are applied, together with the family room, which has a mat and black magnetic wall for creative drawing, gather the whole family for retaining close relationship.
